

New Source Review newspaper advertisements for construction permit applications, September 4, 2003. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: September 2, September 3, or September 4, 2003. Public notices are generally published every two weeks. The previous publication of public notices was August 20 – 21, 2003.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Boatmate Trailers, Inc. with a mailing address of 225 Industrial Drive, Vonore, TN 37885. They seek to obtain an air contaminant permit (Division identification number: 05-0200-01/56641) for construction of a Surface Coating Operation at 1713 Henry G. Lane, Maryville, TN 37803. This proposed operation would consist of spray booths and associated equipment used to coat boat trailers. Exhaust filters would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the Blount County "Maryville Daily Times"--published once on or before Thursday, September 4, 2003.

The applicant is Emerson Motor Company with a mailing address of 957 West Mullin Street, Humboldt, TN 38343. They seek to obtain an air contaminant permit (Division identification number: 27-0093-20/56597) for construction of a Surface Coating Operation at 957 West Mullin Street, Humboldt, TN 38343. This proposed operation would consist of a rust inhibitor dip tank for electric motors. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. G. Latif is the assigned Division person.

For the Gibson County "Milan Mirror-Exchange"--published once on or before Thursday, September 4, 2003.

FIRST APPLICANT

The first applicant is Southern Container Corporation with a mailing address of 115 Engineers Road, Huppaug, NY 11788. They seek to obtain air contaminant permits for construction of air contaminant sources at South Rutherford Boulevard, Murfreesboro, TN 37127, as follows:

(1) Boiler Operation (Division identification number: 75-0572-01/56564). This proposed operation would consist of a gas-fired boiler used to generate steam. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. R. Simmons is the assigned Division person.

(2) Paper Recycling and Handling Operation (Division identification number: 75-0572-02/56565). This proposed operation would consist of equipment used to transfer waste paper from various points in the plant and to process recycled paper. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. R. Simmons is the assigned Division person.

SECOND APPLICANT

The second applicant is Field Container Co., LP with a mailing address of 1500 Nicholas Blvd., Elk Grove Village, IL 60007. They seek to obtain air contaminant permits for construction of air contaminant sources at 1800 Midway Lane, Building C, Smyrna, TN 37167, as follows:

(1) Printing Operation (Division identification number: 75-0576-01/56629). This proposed operation would consist of a webfed, lithographic printing press and associated solvents used in printing operations. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

(2) Surface Coating Operation (Division identification number: 75-0576-02/56630). This proposed operation would consist of a gluing machine and associated equipment used in water based adhesive application. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. W. Medley is the assigned Division person.

For the Rutherford County "Daily News Journal"--published once on or before Thursday, September 4, 2003.

The applicant is Activated Metals & Chemicals, Inc. with a mailing address of P.O. Box 4130, Sevierville, TN 37864. They seek to obtain an air contaminant permit (Division identification number: 78-0113-04/56660) for construction of a Nickel and Aluminum Alloy Packaging Operation at 904 Old Knoxville Highway, Sevierville, TN 37864. This proposed operation would consist of a jaw crusher, grinder, and associated equipment used to package nickel and aluminum alloys. Wet suppression and a cyclone would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

For the Sevier County "Mountain Press"--published once on or before Thursday, September 4, 2003.
